

HODGSON CAMP HOUSES

Read the "Interesting Story" — pages 2 to 5 in this booklet. You will then realize the unusual experiences the Hodgson Camp Houses have gone through during the past forty years. There is nothing quite like them on the market today.

Their prices at present are exceedingly low. It would be wise for you to decide now and send your order, for shipment whenever you wish it.

HODGSON CAMP HOUSES

THESE Camp Houses have been on the market for forty years. They have an established reputation for durability and stability.

Our system of units makes it possible to easily and quickly erect a one room camp in an hour's time, and the largest one in a few hours, without fuss or muss; also to as quickly and easily add rooms at any time.

These houses are used for vacation houses, both summer and winter; school camps; overnight camps; guest or overflow houses; for many uses in large camps where small buildings are needed; also for play houses, skating houses, rest houses, storage houses, etc.

There are many interesting facts in the following pages. It will be well worth your while to read this booklet thoroughly.

The prices are astonishingly low.

The Interesting Story of a Unique Business

*First factory built in
1892.*

FORTY years ago a youngster with an ingenious mind conceived the idea of building small houses in a new way—completely in sections, that could be shipped anywhere, that could be erected by anyone in a few hours' time without the use of nails—simply bolted together.

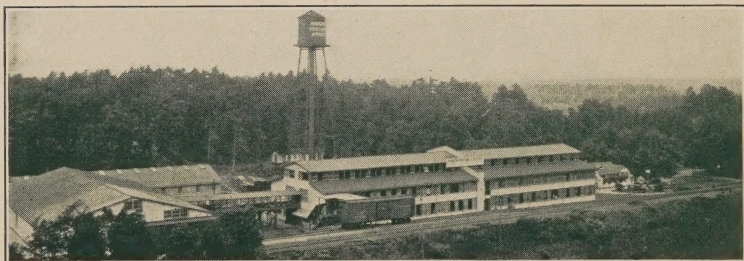

Soon this ingenious young pioneer, Ernest F. Hodgson, built himself this small factory and equipped it with machinery. Thus was born the business that has grown in these forty years to such tremendous proportions.

This same inventive man, E. F. Hodgson, is still its active head.

Mr. Hodgson at first made small houses for all sorts of purposes—dog houses, poultry houses, tool houses; then one room camp houses, and soon came camps of several rooms.

But it was in the glamorous day of 1900, when that marvelous invention, the "horseless carriage," came into use that the business gained great momentum.

At that time came the demand for "Auto Stables," as they were called. The use of the automobile also brought an increased de-

mand for the Hodgson camp and vacation houses. This demand for garages and camps came from all parts of the country, and indeed from many foreign countries. There are Hodgson houses in South Africa; in Jerusalem; in Greece; in Belgium; in Italy; in South America; in

Nicaragua; in Honolulu; in Newfoundland; Labrador; and other foreign parts.

We know that many of the Camp Houses Mr. Hodgson first built are still in use. The famous actor, Denman Thompson, purchased one in 1905 and erected it in Swanzee, N. H. This house is still in use by his descendants, being in fine condition and bearing silent testimony to the enduring qualities of Mr. Hodgson's ingenious construction.

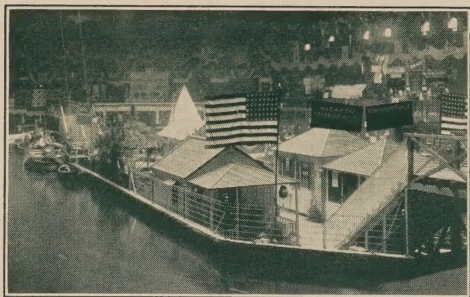

Another remarkable demonstration of the sturdiness of these houses, is in the one sent to the Grenfell Association at Indian Harbor, Labrador, many years ago. It stands today in a most exposed location, sturdily resisting the severe elements of that bleak coast.

Mr. Hodgson has kept in step with modern progress. Improvements in construction, materials and finish have been constantly made from year to year, so that today our Houses are unique.

The few pictures shown on the first five pages of houses purchased in bygone days have an historical interest and demonstrate the originality of Mr. Hodgson's idea.

The illustrations of the houses being made today demonstrate the continued value of his

achievement. These illustrations are from actual photographs, and will give you a very good idea of the appearance of our Camp Houses.

If you can call at one of our salesrooms or outdoor exhibits it will be a pleasure to show you the houses themselves.

At Moosehead Lake, Maine, for 12 Years

"I am very familiar with your houses, as I purchased four some ten or twelve years ago, and I am using them as a camp near Moosehead Lake in Maine. Some two years ago I was obliged to move my camp on account of the construction of a dam, which, when the basin was filled would drown me out, so I moved my camp down some five miles from the old location. This was done without marring the sections to any extent, and they were re-erected and now look as good as new.

"I want to let you know how much I appreciate the quality of the paint used on them, as during all this time only the roof has been repainted until this summer."

Perfect After Eleven Years in Northern New Hampshire

"Will you please advise me as to the correct method of taking down one of your cottages which I purchased of you eleven years ago, and which has braved the climate of Northern New Hampshire, with no further attention, all these years, than a new coat of paint on the roof. It really is a most remarkable piece of ingenious workmanship, and I congratulate you.

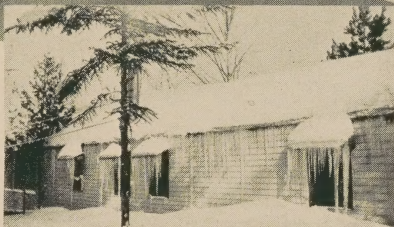

"Now I wish to remove it to another location."

This Hodgson Camp of 5 rooms was exhibited at the Sportsman's Show, New York, in 1907 and purchased there by Mrs. Nelson.

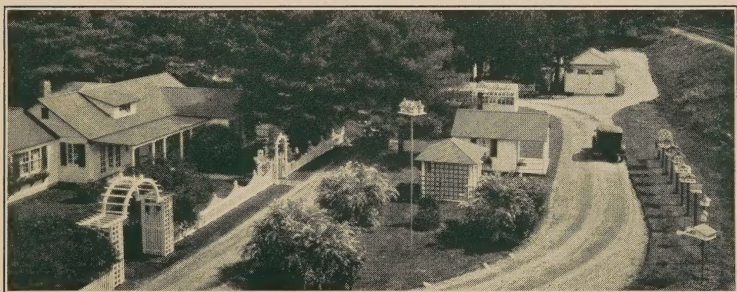

After 20 years Mrs. Nelson, who erected this house at Moosehead Lake in 1907, wrote the letter below.

This Hodgson Camp House has many times been buried under six feet of snow.

Twenty Years at Moosehead Lake, Maine

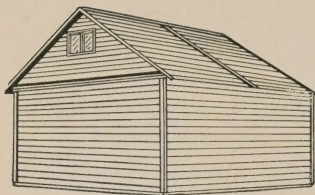

"I have just returned from my Hodgson house on Moosehead Lake, Maine. After twenty years of snow and ice it protected us most comfortably through a big gale and snow-storm."

MADE in Units. Easily and quickly increased in size.

With 40 years experience in making unit built houses, we know that these Camp Houses are as practical as it is possible to make.

THE FRAMES are of strong Oregon pine and cedar.

THE OUTSIDE COVERING is of enduring cedar, which will last a lifetime.

THE EXTERIOR WOODWORK is dipped in tanks of linseed oil before being made up into sections.

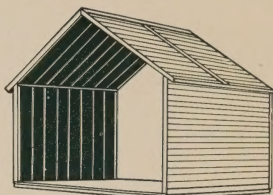

ALL OUTSIDE NAILS are hot dipped galvanized and the hardware is either brass or cadmium plated, thus preventing rust.

SECTIONS are bolted together with our special WEDGE KEY BOLTS, an invention of ours dating back 35 years. We are using thousands of these each year, saving our customers much expense in the erection of our buildings.

THE PANEL DOORS are of the best quality, with good mortised locks.

THE INTERIOR is lined with a heavy tan fibre, waterproof and windproof, making a very dry camp. The woodwork is stained walnut brown.

PARTITIONS are made up with a cedar frame and covered with Celotex. They are furnished with or without peaks or doors.

A 5 x 10 ft. Additional Unit to enlarge the house \$37.50
A 10 x 10 ft. Additional Unit to enlarge the house 75.00

Casement Windows \$8.00 each.
Doors \$10.00 each.
Shutters that screw on (not hinged) \$2.00 per pair.

3 ft. Flower Boxes, \$1.50 each.
Other items, see pages 11 and 13.

End Porch to go on ends of house only, 5 x 10 ft. \$40.00

Our Wedge Key Bolts that make the houses go up like magic.

THE CASEMENT WINDOWS have automatic adjusters and secure locks.

FLOOR, ROOF, SIDES and PARTITIONS, all made in sections with doors and windows installed, are quickly Key Bolted together. A 10 x 10 ft. Camp House can easily be erected in an hour.

THERE IS NO ROOFING MATERIAL TO PUT ON AFTER THE BUILDING IS UP. Used 40 years.

The sections are shipped unpainted, but oiled. We can furnish paint, white or green, at \$3.00 per gallon; or Cabot's outside brown stain at \$1.75 per gallon; green stain at \$2.00 per gallon.

Treated cedar foundation posts cost 15c. per lineal foot; a 10 x 10 ft. Camp will require 30 lineal feet, costing \$4.50.

TERMS OF PAYMENT: The prices listed in the catalog are net. A deposit of 25% is required with all orders when placed. The balance may be paid prior to shipment; sight draft attached to bill of lading; or if satisfactory references are given, the balance may be paid after goods are received.

"Five years ago I bought from you rather a large Hodgson house of seven rooms. This summer we have come back to it and it will please you to learn that we find it in perfect condition, no leaks, no warping, everything snug and tight, as good as new. Two years ago we had the house oiled on the outside, but otherwise no special care has been taken of it. I am very much pleased and compliment you on your honest workmanship."

After Sixteen Years' Use

CASTINE, MAINE.

"This little house in Castine, Maine, is yet going strong and has never leaked, which is more than we can say of three other houses—carpenter built—which we own here. Our Hodgson Cottage is our favorite building.

Hodgson Camp House Interiors

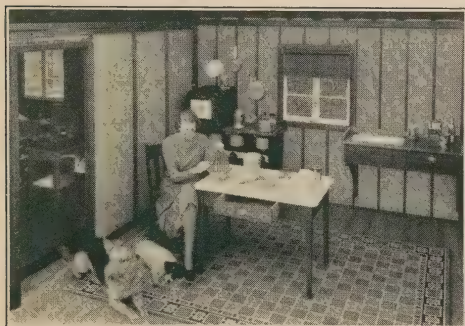

10 x 10 ft. Living Room

The Lavatory in the bedroom is often used in overnight camps or in guest houses. The prices of some of these furnishings are given on page 13.

Any of these rooms can easily be enlarged to 10x 15ft., by adding a 5 x 10 ft. Unit.

10 x 10 ft. Bed Room

10 x 10 ft. Kitchen

THESE three interiors of the Hodgson Camp houses will give a very good idea of the amount of room in a 10 x 10 ft. room when properly furnished. The fire place in the Living Room easily heats three roomseven in cold weather; or an air tight stove can take its place.

THESE Garages are made up of the same units as the Camp Houses, so that they can be increased in size to fit your car. See page 5 for construction details. The doors, having glass, give plenty of light, so that no windows are necessary. This saves expense and oftentimes is desirable,

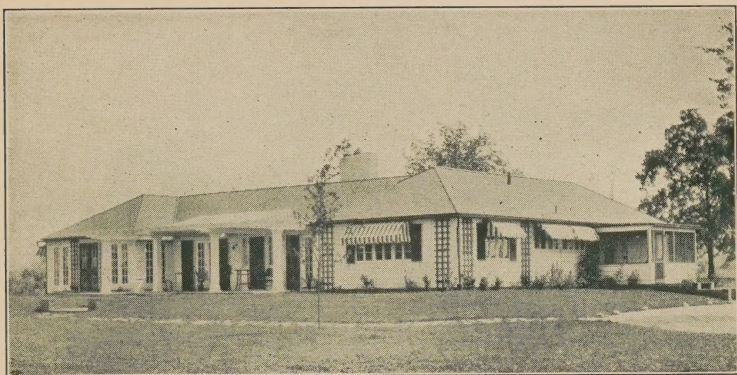

especially if the Garage is used only during the summer months.

Windows are figured at	\$8.00 each
Shutters, per pair	2.00
Side Panel Doors	10.00 each

These Garages are not painted, but they are oiled outside and stained inside. The prices are quoted without wooden floors. If wooden floors are wanted, add \$30.00 for a 10 x 15 ft. Garage; and \$40.00 for a 10 x 20 ft. Garage.

Style S Garage 10 x 20 ft. without windows—\$170.00; with four windows and shutters—\$210.00 or with one window with shutters in back end—\$180.00.

THE BILTMORE

NEW YORK

JOHN McENTEE BOWMAN

President

PRIVATE OFFICE

E. F. Hodgson Co.,
1108 Commonwealth Avenue,
Boston.

Gentlemen—

"I have often thought that the man who designed and developed the Hodgson House should be decorated as a special benefactor of mankind and had he lived in any other country but America, I believe he would have been.

"I have been using the Hodgson Houses for years, both in Maine and in Westchester County and each Spring I marvel how they have withstood the blasting winters they have gone through. Each one in particular seems to defy the elements and when you realize that both of these climates are very hard during the winter months, and that after many years not even a stain of melting snow has come through, you can realize how well they are constructed and put together.

"One house in particular has been used by me for over several years, part of that time as a playhouse for my little girl, but it became too small for her so I purchased a larger Hodgson House for her and turned the other one over for a tool house and there it will probably stay doing good service and no doubt outlast both the gardner and myself.

"I have also used these houses at Goldens Bridge and I am now erecting them at Stone Hedge. I do not know just how they were developed but I will say that they are the nearest thing to perfection in their line, or the nearest thing to 100 per cent plus that I know of."

Very truly yours,

JOHN McENTEE BOWMAN.
